This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1978 from the
Director of Central Intelligence to the
Archivist of the United States.

The following is a translation of a report written by an official of the
Vienna Chamber of Commerce concerning conditions in the Brunn glass
factory (sic):

1. An official of the French Military Government reports that large quantities
of window glass are being shipped to Russia from the Brunn glass factory.
An enquiry sent to the company brought in the following reply:
2. Early in September the Russians requested that 75% of the production of
the glass factory be surrendered to them, allegedly not for export to
Russia but for delivery to other Russian-controlled concerns. In return,
the Russians offered to deliver raw material to Brunn. The Federal
Ministry for Trade and Reconstruction rejected the offer, stating that,
although with some difficulty, the Brunn factory was able to procure its
raw material itself and that an acceptance of the Russian proposal would
completely disorganize existing delivery schedules.
3. The Russians deliver glass from Brunn direct to their customers without
requiring any ration certificates. Furthermore, they have ordered the
shipping department of the Brunn glass factory to sell the glass at retail
prices instead of wholesale prices. This constitutes a violation of
price controls. The main office in Vienna has no control over these
manipulations and has no way of justifying this procedure with the Ministry,
or of drawing up invoices without violating existing regulations. In
addition, the main office in Vienna has been instructed to forward all
incoming mail unopened to the Russian control officer in Brunn, who opens
the mail and issues instructions. This hinders the normal course of
business very seriously. **Comment:** The report does not give
the exact name of the factory concerned, nor does it indicate its loca-
tion; there are several towns by the name of Brunn in the Russian Zone
of Austria.)
